Hi Monica and Steve,

I hate to bug you as I know you are busy, but we have a Congressional request for the Tier II form for the Arkema, Crosby TX facility. Do you all have a copy of their Tier II or point me to where I can get it?

Thanks,

Kim

Thank you Kim. OCIR has now asked for publicly available information on the plant. Could you send me what's publicly available?

Also, could you reach out to the Region to get the Tier II form for this facility?

These requests are from EPA oversight committee staff (not sure which one).

Hi Jackie,

Here is the complete current RMP (with OCA information) for the Arkema, Crosby TX facility. Please control as sensitive information under the Chemical Safety Information, Site Security, and Fuels Regulatory Relief Act. That essentially means it can't be distributed to the public or other individuals who are not "covered persons" under the statute (covered persons basically include Federal, state, and local government personnel with an official need for the information). If we do distribute it to other covered persons, please send along the accompanying security notice.

EPA does not receive Tier II forms from facilities. As required by the EPCRA statute those forms are sent to the State Emergency Response Commission (SERC), Local Emergency Planning Committees (LEPCs) and local fire departments. We can contact the Region to see if they have a copy of the Tier

II form for this facility.

Please let me know if you have any additional questions or want to discuss.

Thanks,

Kim

**Subject:** HIGH PRIORITY - Congressional request

**Importance:** High

Hi Becki and Kim,

We've received 2 high priority congressional requests from OCIR today -- we have been asked for copies of the following:

1. The off-site consequence analysis for the Arkema chemical plant in Texas
2. All of the EPCRA reports for the Arkema plant.

**Could you please send these to me ASAP.** Caroline Levine is in the EOC and she says these are high priority. She has talked to Becki and Tito about this.

Let me know if you have any questions. Thanks!  
Jackie
